

**Memorandum of Understanding
for Collaboration on
Interdisciplinary Research, Integrating
Ecological and Conservation related Research in Longleng
District.**

This Memorandum of Understanding (MoU) is signed between **YINGLI COLLEGE, LONGLENG** and **LEMSACHENLOK, LONGLENG: NAGALAND** to work together in supporting Indigenous Community Biodiversity Conservation initiatives, particularly in the fields of education and capacity building in the fight to protect the natural world and the biodiversity within it.

The MoU agreement signed will pave the way for shared initiatives to accelerate building the capacity of local biodiversity ambassadors and conservation leaders. Additionally, it will enable a series of knowledge exchange activities to support effective implementation of the framework under the College and Research hub under LEMSACHENLOK.

This MoU will enable both institutions to collaborate in the areas of interdisciplinary research on integrating ecological and conservation related research in different disciplines under Longleng district, along with training and capacity building of researchers and students from both the institutions. The MoU will also facilitate faculty, researchers, and students of both institutions to pursue collaborative ecology and conservation research projects and conduct advanced scientific courses on regional, national and international workshops.

The main objective of the agreement is to develop a partnership between the two Institutions that will enhance the conservation and management of biodiversity and ecosystems, climate change resilience in Longleng district.

Collaborative activities will include the exchange of information on development and current activities in relation to the environment, support for capacity-building activities in relation to the biodiversity conservation and research programs.

The MoU, which is valid for a period of five years and is subjected for extension, is signed on 5th June 2023 by:
